# About Us

Women's Health Goulburn North East is a trusted and respected organisation that works to improve the quality of life of women and girls.

Our work encourages individuals and organisations to challenge sexism, discrimination and disrespectful behaviour.

National and international research show that gender inequality is a key driver of violence against women (Victorian Government 2016).

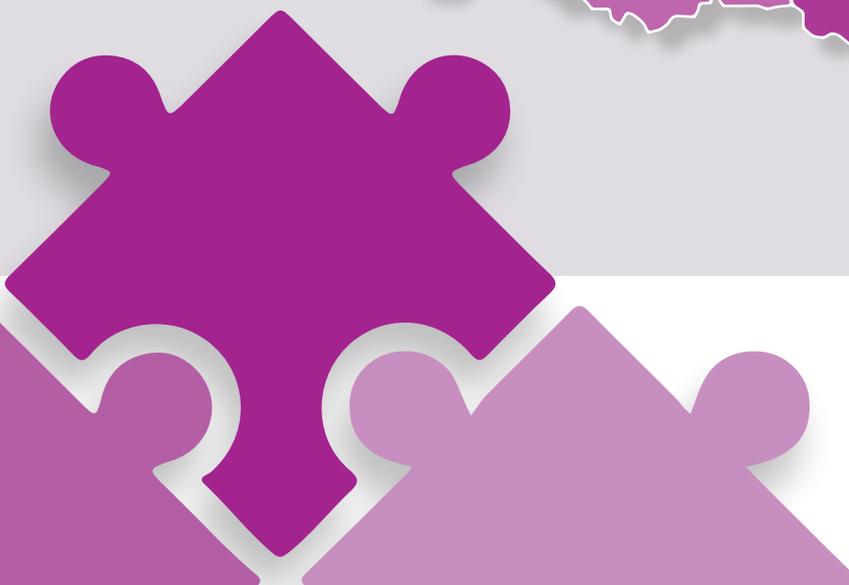

Workplaces, organisations and communities can make a significant difference for change towards gender equity, however driving this change can be a challenge.

We deliver training, coaching and leadership programs that strengthen organisations, businesses, clubs, groups and networks to collectively transform gender inequality in our region.

WHGNE has been providing training and consultancy services regionally across a wide range of sectors for more than 15 years in the following areas:

# About Our Programs

We have experienced staff who focus on shared learning.

We deliver our training in a creative and safe environment that allows for education, learning and reflection.

Our work covers three streams: Building the Foundations, Excellence in Gender Equity, and Leadership in Gender Equity.

## Building the Foundations

### Summary

In this stream, participants learn about the ways that gender equity creates safe communities and workplaces.

### What is covered?

This stream covers the basics; gender equity, respect, and responding to Family Violence and Sexualised Harassment.

### Is this for you?

This stream is suitable for those who want to gain a basic understanding of the concepts behind gender equity.

## Excellence in Gender Equity

### Summary

This stream cultivates a thorough understanding of best practice around gender equity and the prevention of violence against women and children.

### What is covered?

This stream explores gender equity in greater depth, including human rights, developing and using gender-equitable communication, and how to take effective action to promote equity and create respectful cultures.

### Is this for you?

This stream is particularly suited to those who want to respond to issues of gender equity and the prevention of violence and are in a position to positively impact their workplace and community.

## Leadership in Gender Equity

### Summary

This stream cultivates a clear, strategic view of the challenges and opportunities presented when implementing gender equity across workplace and community settings.

### What is covered?

This stream is designed to support participants in gaining a holistic approach to gender equity, giving them the skills to lead their organisation or business in this area.

### Is this for you?

Middle and senior management who have a genuine desire to make their workplace more gender equitable.
